Intro to Cognitive Science (2026/2027)

izv. prof. dr. sc. Sandro Scansi (skansi.sandro@gmail.com)

1. (2026-10-09) First lecture / introduction
2. (2026-10-16) History of Cognitive Science
3. (2026-10-23) Introduction to Cognitive Science
4. (2026-10-30) Three Milestones: the Prehistory of Cognitive Science through three Landmark Papers
5. (2026-11-06) The Turn to the Brain

_____

6. (2026-11-13) fMRI _____
7. (2026-11-20) Artificial Neural Networks

_____

8. (2026-11-27) Physical Systems Symbol Hypothesis and Dynamic Systems / Cognitive modelling

_____

9. (2026-12-04) Dynamic Systems

_____

10. (2026-12-11) Bayesianism

_____

11. (2026-12-18) Mindreading

_____

12. (2027-01-08) Modules

_____

13. (2027-01-15) Brainmapping

_____

14. (2027-01-22) Consciousness

_____

Student obligations:

(0) Attendance: Compulsory, max 3 absences

(1) Presentation: Students have to use the Bermudez book, The presentation must last for 1 hour

(2) For their final grade the students will have an oral exam

Literature:

Cognitive Science: An Introduction to the Science of the Mind (3rd Edition) by José Luis Bermúdez
